

Basic Master Key System For 36 Offices

Each office 1 through 36 has a change key that will allow entry to that office only. The Sub Master / Supervisor key will allow entry to the offices directly below as shown in the diagram. (i.e. Sub Master A1 can access offices 1 – 4, Sub Master A2 can access offices 5-8...)

The Master / Manager can access all offices under his Sub Masters. The Grand Master can access all offices in the system.
